Work Experience

Software Engineer at Andy

(2019-06 - Present) · Remote (CET timezone) · Full time

- Lead developer and person in charge of the support of two McDonald's projects (example: <https://pidetufactura.mcdonalds.es>).
- Lead Andy's Frontend and Backend developments: (analyze the problem, plan tasks, develop in a scalable way, test, document and deploy to production).
- Design and implement Andy's infrastructure (servers and DevOps methodologies)
- Assist support team with technical tickets.

Software Engineer at Kriter Software

(2018-06 - 2019-06) · Mataró, Spain · Part time

- Developed and maintained two e-commerce sites, providing customer support (example: <https://gallissa.com>).
- Developed and maintained internal scripts to automatize tasks and analyze data.

Studies and certifications

Bachelor's degree, Computer Engineering

Universitat Oberta de Catalunya

I completed the first year while working full time, and decided for the time being to put my degree aside and study and practice on my own

Associate's degree, web development (DAW)

IES Thos i Codina · 2017 - 2019

During the two years I learned how to code, and in the second year I started working as a developer while I was finishing my studies.

English - B2

Universitat Oberta de Catalunya · 2020
